Creative and detail-oriented UI/UX Designer with 7+ years in digital product design and over a decade in visual communication. Expert in responsive web design, developer-ready HTML/CSS templates, and interactive prototyping. Adept at cross-functional collaboration, scalable design systems, and modern tools including Figma and Axure. Passionate about crafting human-centered experiences, streamlining handoff processes, and exploring AI-assisted design workflows.

CORE SKILLS

- Design & Prototyping: Figma, Axure RP, Adobe XD, Photoshop
- Frontend Technologies: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Ant Design, DevExtreme (ASP.NET UI toolkit)
- Design Systems & UI Frameworks: Responsive Design, Scalable Design Systems, Component-Based Templates, Design Tokens, UI Kits, Accessibility (WCAG 2.1)
- UX Strategy & Methods: Wireframing, Prototyping, User Flows, Journey Mapping, Content Strategy, UX Research, UX Audits
- AI & Automation (Exploration Stage): AI-Assisted Prototyping, AI-Powered Design Plugins, Design-to-Code Automation Tools, Workflow Automation
- Collaboration Tools: Jira, Trello, Slack, Microsoft Teams, Microsoft 365

PROFESSIONAL EXPERIENCE

SHIPADMIN PHILIPPINES INC. — Lead UI/UX Designer

November 2022 - Present

- Sole designer leading company-wide design initiatives and cross-functional collaboration.
- Delivered responsive, production-ready HTML/CSS templates for internal Vessel and Fleet Manager modules, reducing developer effort by 30%.
- Initiated a centralized design asset repository, cutting repetitive Dev-Designer interactions by 50%.
- Modernized legacy modules via UI/UX redesigns, enhancing usability and consistency.
- Led UI rebranding of internal platforms to align with the acquiring company's design system.
- Conducted UI/UX audits to identify and address key usability issues in legacy systems.

CENTRALIZED CLOUD COMPUTING INTL., INC. — Senior UI/UX Designer

February 2017 - November 2022

- Pioneered digitized wireframes from paper to Adobe XD, then introduced Axure for interactive prototypes, later transitioning the team to Figma for collaborative design.
- Introduced high-fidelity, interactive prototypes for client presentations, reducing the need for developing full systems for demos and cutting post-approval design changes by around 50%.
- Designed chatbot-integrated admin console for a multinational automotive company, enabling real-time chatbot customization.
- Delivered internal banking app wireframes and dev-ready templates for a major bank.
- Created MVP for a social networking mobile app and multiple chatbot UIs for both local and international clients.
